Notice to Readers

Though the guidelines and procedures contained in this text are based on consultations with healthcare professionals, they should not be considered absolute recommendations. The instructor and readers should follow employer, local, state, and federal guidelines concerning healthcare practices. These guidelines change, and it is each reader's responsibility to be aware of these changes and of the policies and procedures of their healthcare facility.

The publisher, authors, editors, and reviewers cannot accept any responsibility for errors or omissions or for any consequences from application of the information in this book and make no warranty, express or implied, with respect to the contents of the book. The publisher does not warrant or guarantee any of the products described herein or perform any analysis in connection with any of the product information contained herein.

Gender Usage

This textbook uses gender pronouns interchangeably to denote healthcare team members and residents and clients. The words *male* and *female* as used throughout relate to a person's sex assigned at birth. This may be different from their experienced gender.

Special Thanks

During the years of creating and revising this text, many reviewers and customers guided us. A sincere thanks to each of them and to those who helped us with this most recent edition:

Marlena Bushway, PhD, RN
Roswell, NM

Richard J. Frank, MSN, RN
Salem, MA

Lauren Greene, MSN-Ed, RN, CHSE, ANPD-BC
Hampton, VA

Katherine Howard, MS, RN-BC, CNE
Edison, NJ

Charles A. Illian, BSN, RN
Orlando, FL

Desiree Reinken, PhD, APRN, NP-C
Villa Ridge, MO

We are very appreciative of the many sources who shared their informative photos with us:

Contents

1 Understanding Healthcare Settings

	Page
1. Discuss the structure of the healthcare system and describe ways it is changing	1
2. Describe a typical long-term care facility	4
3. Describe residents who live in long-term care facilities	4
4. Explain policies and procedures	5
5. Describe the long-term care survey process	6
6. Explain Medicare and Medicaid	6
7. Discuss person-centered care and trauma-informed care	7

2 The Nursing Assistant and the Care Team

	Page
1. Identify the members of the care team and describe how the care team works together to provide care	9
2. Explain the nursing assistant's role	11
3. Explain professionalism and list examples of professional behavior	12
4. Describe proper personal grooming habits	14
5. Explain the chain of command and scope of practice	15
6. Discuss the resident care plan and explain its purpose	16
7. Describe the nursing process	18
8. Describe the Five Rights of Delegation	18
9. Demonstrate how to manage time and assignments	19

3 Legal and Ethical Issues

	Page
1. Define the terms <i>ethics</i> and <i>laws</i> and list examples of legal and ethical behavior	21
2. Explain the Omnibus Budget Reconciliation Act (OBRA)	22
3. Explain Residents' Rights and discuss why they are important	23

<i>Learning Objective</i>	<i>Page</i>
---------------------------	-------------

4. Discuss abuse and neglect and explain how to report abuse and neglect	25
5. List examples of behavior supporting and promoting Residents' Rights	28
6. Describe what happens when a complaint of abuse is made against a nursing assistant	29
7. Explain how disputes may be resolved and identify the ombudsman's role	29
8. Explain the Health Insurance Portability and Accountability Act (HIPAA) and list ways to protect residents' privacy	30
9. Explain the Patient Self-Determination Act (PSDA) and discuss advance directives and related medical orders	32

4 Communication and Diversity

1. Define <i>communication</i>	34
2. Explain verbal and nonverbal communication	35
3. Describe ways different cultures communicate and discuss diversity	36
4. Describe therapeutic communication and identify barriers to communication	38
5. Explain the difference between facts and opinions	42
6. Explain objective and subjective information and describe how to observe and report accurately	42
7. Explain how to communicate with other team members	43
8. Describe basic medical terminology and abbreviations	43
9. Explain how to give and receive an accurate report of a resident's status	45
10. Explain documentation and describe related terms and forms	45
11. Describe incident reporting and recording	48
12. Demonstrate effective communication on the telephone	50
13. Explain the resident call system	51
14. List guidelines for communicating with residents with special needs	52

<i>Learning Objective</i>	<i>Page</i>	<i>Learning Objective</i>	<i>Page</i>
5 Infection Prevention and Control			
1. Define <i>infection prevention</i> and discuss types of infections	60	10. Describe guidelines for what must be done if a restraint is ordered	94
2. Describe the chain of infection	61	11. Identify major causes of fire and list fire safety guidelines	95
3. Explain why the elderly are at a higher risk for infection	62		
4. Explain Standard Precautions	63		
5. Explain hand hygiene and identify when to wash hands	65		
6. Discuss the use of personal protective equipment (PPE) in facilities	67		
7. List guidelines for handling equipment and linen	72		
8. Explain how to handle spills	73		
9. Explain Transmission-Based Precautions	73		
10. Define <i>bloodborne pathogens</i> and describe two major bloodborne diseases	77		
11. Explain OSHA's Bloodborne Pathogens Standard	79		
12. Define <i>tuberculosis</i> and list infection prevention guidelines	80		
13. Discuss MRSA, VRE, and <i>C. difficile</i>	81		
14. List employer and employee responsibilities for infection prevention	82		
6 Safety and Body Mechanics			
1. Discuss workplace safety and identify common hazards in the healthcare environment	84		
2. Explain the Safety Data Sheet (SDS)	85		
3. Explain the principles of body mechanics	85		
4. Apply principles of body mechanics to daily activities	86		
5. Identify the persons at greatest risk for accidents and describe accident prevention guidelines	87		
6. List safety guidelines for oxygen use	91		
7. Define the term <i>restraint</i> and give reasons why restraints were used	92		
8. List physical and psychological problems associated with restraints	93		
9. Discuss restraint alternatives	93		
7 Emergency Care and Disaster Preparation			
1. Demonstrate how to recognize and respond to medical emergencies	98		
2. Demonstrate knowledge of first aid procedures	99		
3. Describe disaster guidelines	110		
8 Human Needs and Human Development			
1. Identify basic human needs	114		
2. Define <i>holistic care</i> and explain its importance in health care	115		
3. Explain why independence and self-care are important	115		
4. Describe sexual orientation and gender identity and explain ways to accommodate sexual needs	117		
5. Identify ways to help residents meet their spiritual needs	119		
6. Identify ways to accommodate cultural and religious differences	120		
7. Describe the need for activity	123		
8. Discuss family roles and their significance in health care	123		
9. List ways to respond to emotional needs of residents and their families	125		
10. Describe the stages of human growth and development and identify common disorders for each stage	126		
11. Distinguish between what is true and what is not true about the aging process	130		
12. Explain developmental disabilities and list care guidelines	131		
13. Identify community resources available to help elderly people and people who have developmental disabilities	134		

Learning Objective	Page	Learning Objective	Page
9 The Healthy Human Body		12 The Resident's Unit	
1. Describe body systems and define key anatomical terms	136	1. Explain why a comfortable environment is important for the resident's well-being	193
2. Describe the integumentary system	137	2. Describe a standard resident unit	194
3. Describe the musculoskeletal system	138	3. Discuss how to care for and clean unit equipment	196
4. Describe the nervous system	140	4. Explain the importance of sleep and factors affecting sleep	197
5. Describe the circulatory system	143	5. Describe bedmaking guidelines and perform proper bedmaking	198
6. Describe the respiratory system	145		
7. Describe the urinary system	146		
8. Describe the gastrointestinal system	148		
9. Describe the endocrine system	149		
10. Describe the reproductive system	151		
11. Describe the immune and lymphatic systems	153		
10 Positioning, Transfers, and Ambulation		13 Personal Care Skills	
1. Review the principles of body mechanics	156	1. Explain personal care of residents	204
2. Explain positioning and describe how to safely position residents	157	2. Identify guidelines for providing skin care and preventing pressure injuries	206
3. Describe how to safely transfer residents	164	3. Explain guidelines for assisting with bathing	210
4. Discuss how to safely assist residents with ambulation	175	4. Explain guidelines for assisting with grooming	221
		5. List guidelines for assisting with dressing	227
		6. Identify guidelines for proper oral care	229
		7. Explain how to care for dentures and describe dental implants and fixed bridges	233
11 Admitting, Transferring, and Discharging		14 Basic Nursing Skills	
1. Describe how residents may feel when entering a facility	180	1. Explain the importance of monitoring vital signs	236
2. Explain the nursing assistant's role in the admission process	181	2. List guidelines for measuring body temperature	237
3. Explain the nursing assistant's role during an in-house transfer of a resident	186	3. List guidelines for counting pulse rate and respiratory rate	244
4. Explain the nursing assistant's role in the discharge of a resident	187	4. Explain guidelines for measuring blood pressure	246
5. Describe the nursing assistant's role in physical exams	189	5. Describe guidelines for pain management	250
		6. Explain the benefits of warm and cold applications	252
		7. Discuss nonsterile and sterile dressings	256
		8. Discuss guidelines for elastic bandages	258
		9. List care guidelines for intravenous (IV) therapy	259
		10. Discuss oxygen therapy and explain related care guidelines	261

<i>Learning Objective</i>	<i>Page</i>	<i>Learning Objective</i>	<i>Page</i>
15 Nutrition and Hydration			
1. Describe the importance of proper nutrition and list the six basic nutrients	264	3. Describe common diseases and disorders of the gastrointestinal system	316
2. Describe the USDA's MyPlate	265	4. Discuss how enemas are given	319
3. Identify nutritional problems of the elderly or ill	268	5. Demonstrate how to collect a stool specimen	323
4. Describe factors that influence food preferences	271	6. Explain fecal occult blood testing	325
5. Explain the role of the dietary department	272	7. Discuss ostomies and list care guidelines	326
6. Explain special diets	272	8. Explain guidelines for assisting with bowel retraining	328
7. Discuss swallowing problems and explain thickened liquids and texture-modified foods	276		
8. Describe how to make dining enjoyable for residents	278		
9. Explain different dining styles and describe how to serve meal trays	279		
10. Describe how to assist residents with special needs	283		
11. Explain intake and output (I&O)	285		
12. Identify ways to assist residents in maintaining fluid balance	288		
16 Urinary Elimination			
1. List qualities of urine and identify signs and symptoms about urine to report	292	1. Describe common diseases and disorders of the integumentary system	330
2. List factors affecting urination and demonstrate how to assist with elimination	292	2. Describe common diseases and disorders of the musculoskeletal system	333
3. Describe common diseases and disorders of the urinary system	298	3. Describe common diseases and disorders of the nervous system	339
4. Describe guidelines for urinary catheter care	302	4. Describe common diseases and disorders of the circulatory system	345
5. Identify types of urine specimens that are collected	307	5. Describe common diseases and disorders of the respiratory system	351
6. Explain types of tests performed on urine	310	6. Describe common diseases and disorders of the endocrine system	356
7. Explain guidelines for assisting with bladder retraining	312	7. Describe common diseases and disorders of the reproductive system	359
17 Bowel Elimination			
1. List qualities of stool and identify signs and symptoms about stool to report	314	8. Describe common diseases and disorders of the immune and lymphatic systems	361
2. List factors affecting bowel elimination	314	9. Discuss cancer and related care	364
18 Common Chronic and Acute Conditions			
10. Identify community resources for residents who are ill	367	10. Identify community resources for residents who are ill	367
19 Confusion, Dementia, and Alzheimer Disease			
		1. Describe normal changes of aging in the brain	370
		2. Discuss confusion and delirium	370
		3. Describe dementia and list common causes	371
		4. Describe Alzheimer disease and identify its stages	372
		5. Identify personal attitudes helpful in caring for residents with Alzheimer disease	373

<i>Learning Objective</i>	<i>Page</i>	<i>Learning Objective</i>	<i>Page</i>
6. List strategies for better communication with residents with Alzheimer disease	375	3. Describe assistive devices and equipment	401
7. Explain general principles that will help assist residents with personal care	377	4. Explain guidelines for maintaining proper body alignment	402
8. List and describe interventions for problems with common activities of daily living (ADLs)	377	5. Explain care guidelines for prosthetic devices	403
9. List and describe interventions for common behaviors related to Alzheimer disease	380	6. Describe how to assist with range of motion exercises	404
10. Describe creative therapies for residents with Alzheimer disease	385	7. Describe the benefits of deep breathing exercises	409
11. Discuss how Alzheimer disease may affect the family	387		
12. Identify community resources available to people with Alzheimer disease and their families	388		
20 Mental Health and Mental Health Disorders			
1. Identify characteristics of mental health	389	1. Understand the types of residents who are in a subacute setting	411
2. Identify causes of mental health disorders	389	2. Discuss reasons for surgery and types of anesthesia	411
3. Distinguish between fact and fallacy concerning mental health disorders	390	3. Discuss preoperative care	412
4. Explain the connection between mental and physical wellness	390	4. Describe postoperative care	413
5. List guidelines for communicating with residents who have a mental health disorder	390	5. List care guidelines for pulse oximetry	415
6. Identify and define common defense mechanisms	391	6. Describe telemetry and list care guidelines	415
7. Describe types of mental health disorders	391	7. Explain artificial airways and list care guidelines	416
8. Explain how mental health disorders are treated	393	8. List care guidelines for residents requiring mechanical ventilation	418
9. Explain the nursing assistant's role in caring for residents who have a mental health disorder	394	9. Describe suctioning and list signs of respiratory distress	419
10. Identify important observations that should be made and reported	394	10. Describe chest tubes and explain related care	419
11. List the signs of substance use disorder	395		
21 Rehabilitation and Restorative Care			
1. Discuss rehabilitation and restorative care	398	1. Discuss the stages of grief	422
2. Describe the importance of promoting independence and list ways that exercise improves health	400	2. Describe the grief process	423
		3. Discuss how feelings and attitudes about death differ	423
		4. Discuss how to care for a resident who is dying	424
		5. Describe ways to treat dying residents and their families with dignity and how to honor their rights	426
		6. Define the goals of a hospice program	427
		7. Explain common signs of approaching death	429
		8. List changes that may occur in the human body after death	429
		9. Describe postmortem care	429

<i>Learning Objective</i>	<i>Page</i>	<i>Learning Objective</i>	<i>Page</i>
10. Understand and respect different postmortem practices	431	3. Explain how to assist a client with self-administered medications	457
24 Introduction to Home Care		4. Identify observations about medications that should be reported right away	459
1. Explain the purpose of and need for home health care	433	5. Describe what to do in an emergency involving medications	459
2. Describe a typical home health agency	434	6. Identify methods of medication storage	460
3. Explain how working for a home health agency is different from working in other types of facilities	435	7. Identify signs of drug misuse and abuse and know how to report these	460
4. Discuss the client care plan and explain how team members contribute to the care plan	436		
5. Describe the role of the home health aide and explain typical tasks performed	438		
6. Explain common policies and procedures for home health aides	439		
7. Demonstrate how to organize care assignments	440		
8. Identify an employer's responsibilities	440		
9. Identify the client's rights in home health care	441		
25 Infection Prevention and Safety in the Home			
1. Discuss disinfection in the home	444		
2. Describe guidelines for assisting a client when isolation has been ordered	445		
3. List ways to adapt the home to principles of proper body mechanics	446		
4. Identify common types of accidents in the home and describe prevention guidelines	447		
5. List home fire hazards and describe fire safety guidelines	452		
6. Identify ways to reduce the risk of automobile accidents	453		
7. Identify guidelines for using a car on the job	453		
8. Identify guidelines for working in high-crime areas	453		
26 Medications in Home Care			
1. List four guidelines for safe and proper use of medications	455		
2. Identify the "rights" of medications	456		
27 New Mothers, Infants, and Children			
1. Explain the growth of home care for new mothers and infants	462		
2. Identify common neonatal disorders	462		
3. Explain how to provide postpartum care	462		
4. List important observations to report and document	464		
5. Explain guidelines for safely handling a baby	464		
6. Describe guidelines for assisting with feeding a baby	465		
7. Explain guidelines for bathing and changing a baby	469		
8. Identify how to measure weight and length of a baby	473		
9. Explain guidelines for special care	474		
10. Identify special needs of children and describe how children respond to stress	476		
11. List symptoms of common childhood illnesses and the required care	477		
12. Identify guidelines for working with children	477		
13. List the signs of child abuse and neglect and know how to report them	479		
28 Meal Planning, Shopping, Preparation, and Storage			
1. Explain how to prepare a basic food plan and list food shopping guidelines	481		
2. List and define common health claims on food labels	483		

<i>Learning Objective</i>	<i>Page</i>	<i>Learning Objective</i>	<i>Page</i>
3. Explain the information on the FDA-required Nutrition Facts label	485	31 Caring for Your Career and Yourself	
4. List guidelines for safe food preparation	486	1. Discuss different types of careers in the healthcare field	510
5. Identify methods of food preparation	487	2. Explain how to find a job and how to write a résumé	511
6. Identify four methods of low-fat food preparation	490	3. Demonstrate completing an effective job application	512
7. List four guidelines for safe food storage	490	4. Demonstrate competence in job interview techniques	513
29 The Clean, Safe, and Healthy Home Environment			
1. Describe how housekeeping affects physical and psychological well-being	493	5. Describe a standard job description	514
2. List qualities needed to manage a home and describe general housekeeping guidelines	493	6. Discuss how to manage and resolve conflict	515
3. Describe cleaning products and equipment	495	7. Describe employee evaluations and discuss appropriate responses to feedback	515
4. Describe proper cleaning methods for living areas, kitchens, bathrooms, and storage areas	496	8. Explain how to make job changes	516
5. Describe how to prepare a cleaning schedule	500	9. Discuss certification and explain the state's registry	517
6. List special housekeeping procedures to use when infection is present	501	10. Describe continuing education	517
7. Explain how to do laundry and care for clothes	501	11. Define stress and stressor	518
8. List special laundry precautions to take when infection is present	503	12. Explain ways to manage stress	519
9. List guidelines for teaching housekeeping skills to clients' family members	504	13. Describe a relaxation technique	520
10. Identify hazardous household materials	505	14. List ways to remind yourself of the importance of the work you have chosen to do	520
30 Managing Time, Energy, and Money in the Home			
1. Explain ways to work more efficiently	506	Abbreviations	522
2. Describe how to follow an established work plan with the client and family	507	Appendix	525
3. Discuss ways to handle inappropriate requests	507	Glossary	527
4. List money-saving homemaking tips	508	Index	548
5. List guidelines for handling a client's money	508		

Procedure**Page**

Procedures

Washing hands (hand hygiene)	66
Putting on (donning) and removing (doffing) a gown	67
Putting on (donning) a mask and goggles	69
Putting on (donning) gloves	70
Removing (doffing) gloves	70
Donning a full set of PPE	71
Doffing a full set of PPE	71
Performing abdominal thrusts for the conscious person	100
Clearing an obstructed airway in a conscious infant	101
Responding to shock	102
Responding to a myocardial infarction	103
Controlling bleeding	103
Treating burns	104
Responding to fainting	105
Responding to a nosebleed	106
Responding to a seizure	108
Responding to vomiting	109
Moving a resident up in bed	158
Moving a resident to the side of the bed	160
Positioning a resident on his side	161
Logrolling a resident	162
Assisting a resident to sit up on side of bed: dangling	163
Applying a transfer belt	165
Transferring a resident from a bed to a wheelchair	167
Transferring a resident from a bed to a stretcher	169
Transferring a resident using a mechanical lift	171
Transferring a resident onto and off of a toilet	173
Transferring a resident into a vehicle	174
Assisting a resident to ambulate	175
Assisting with ambulation for a resident using a cane, walker, or crutches	177

Procedure**Page**

Admitting a resident	183
Measuring and recording weight of an ambulatory resident	184
Measuring and recording height of an ambulatory resident	185
Transferring a resident	187
Discharging a resident	188
Making an occupied bed	199
Making an unoccupied bed	201
Making a surgical bed	202
Giving a complete bed bath	211
Giving a back massage	215
Shampooing hair	217
Giving a shower or tub bath	219
Providing fingernail care	221
Providing foot care	223
Shaving a resident	224
Combing or brushing hair	226
Dressing a resident	228
Providing oral care	230
Providing oral care for the unconscious resident	231
Flossing teeth	232
Cleaning and storing dentures	233
Measuring and recording an oral temperature	239
Measuring and recording a rectal temperature	240
Measuring and recording a tympanic temperature	241
Measuring and recording an axillary temperature	242
Measuring and recording a temporal artery temperature	243
Counting and recording apical pulse rate	244
Counting and recording radial pulse rate and counting and recording respiratory rate	245
Measuring and recording blood pressure manually	248
Measuring and recording blood pressure electronically	249
Applying a warm or cold compress	253

<i>Procedure</i>	<i>Page</i>	<i>Procedure</i>	<i>Page</i>
Administering a warm soak	254	Burping a baby	469
Assisting with a sitz bath	255	Giving an infant a sponge bath	470
Applying an ice pack	256	Giving an infant a tub bath	471
Changing a dry dressing using nonsterile technique	256	Changing cloth or disposable diapers	472
Assisting in changing clothes for a resident who has an IV	260	Measuring and recording a baby's weight	474
Assisting a resident with eating	282	Measuring and recording a baby's length	474
Measuring and recording intake and output	287	Measuring and recording an infant's axillary, tympanic, or temporal artery temperature	475
Serving fresh water	290	Cleaning a bathroom	499
Assisting a resident with the use of a bedpan	294	Doing the laundry	503
Assisting a resident with a urinal	296		
Assisting a resident to use a portable commode or toilet	297		
Changing an incontinence brief	299		
Providing urinary catheter care	304		
Emptying the urinary catheter drainage bag	305		
Changing a condom catheter	306		
Collecting a routine urine specimen	307		
Collecting a clean-catch (midstream) urine specimen	309		
Collecting a 24-hour urine specimen	310		
Testing urine with reagent strips	311		
Giving a cleansing enema	320		
Giving a commercial enema	322		
Collecting a stool specimen	324		
Testing a stool specimen for occult blood	325		
Caring for an ostomy	327		
Applying knee-high compression stockings	350		
Collecting a sputum specimen	355		
Assisting with passive range of motion exercises	405		
Disinfecting using wet heat	445		
Disinfecting using dry heat	445		
Picking up and holding a baby	464		
Sterilizing bottles	468		
Assisting with bottle feeding	468
